## **STATEMENT OF PRIOR EXPERIENCE AND CURRENT CAPABILITIES**

### **Integrated Service:**

*PAB Development Consultants Ltd (PAB Consult)* is a Ghana-based dynamic, quality focused consulting firm that delivers tailored development consultancy services to governments, non-government agencies, international development agencies, policy think tanks, civil society organisations as well as the private sector. We support our clients to conceptualise, design and deliver pro-poor development and provide advisory, analytical and process support services in the implementation of their programmes.

Established in 1991, *PAB Consult* is committed to ensuring sustainable development, effective natural resource governance, institutional/organizational development, human resource development and poverty alleviation through direct grassroots participation. We ensure client service and interest and adhere to participatory techniques in service provision. This is made possible by the staff of the firm who are seasoned professionals with considerable years of practical and theoretical experience, both locally and internationally. Our reputation for delivery of quality service has been enhanced over the years through partnerships in service delivery with different reputable international firms.

Our reputations are built upon innovation, excellent customer service and consistent high quality work, all of which lie at the heart of what we do. We have a proven track record of provision in various fields including, but not limited to, the following fields:

- socio-economic studies and policy analysis
- social development and civil society strengthening
- rural growth and livelihoods security
- governance, institutional/organizational development
- environment and natural resource management
- agricultural management and advisory services
- project management support

We pride ourselves on a distinctive culture where depth of technical knowledge is complemented by advanced process and facilitation skills.

### **Backstopping**

We also provide excellent back-office support for the professionals engaged in technical implementation. We are housed in own building with six (6) Office rooms, One (1) reception room, a conference room, well-equipped Library and a Secretariat; all rooms are air-conditioned and have full broadband internet connectivity. We hold internal quality control discussions regularly on on-going projects and reports to ensure value for money delivery for our clients.

### **Our track record**

We have a good track record in undertaking social development consulting services in various sectors. The types of services we have rendered over the years include the following:

---
